## About the Conference

The rapid advancement of technology has profoundly transformed human life, reshaping cognition, behavior, relationships, work culture, education, and mental health. While technology enhances efficiency and connectivity, it also raises important psychological, ethical, and social concerns. This International Conference aims to critically examine the interface between Technology and Human Life, exploring both opportunities and challenges from multidisciplinary perspectives.

- Technology, Identity and Social Relationships, Virtual worlds

## About the College

Bali Ram Bhagat (est. 1969) is a very reputed college and the college offers undergraduate and postgraduate programs in Arts, Science, and Commerce, functioning as a multi-faculty co-educational institution. It is recognized under Sections 2(f) and 12(B) of the UGC Act. The institution has also been accredited by NAAC. The primary mission of the college is to provide quality education, especially to students from backward and underprivileged sections of society, and to promote social upliftment, inclusiveness, and a sense of security among learners.

## About the NAOP

The National Academy of Psychology (NAOP) is a professional association representing psychologists and psychological scientists across India. Established in 1989, it promotes research, education, and application of psychology to national development and human well-being. It serves as the apex national body for academic and professional exchange in Indian Psychology. The Academy also encourages high-quality research publications and supports young scholars in the field. Through its initiatives, NAOP plays a significant role in strengthening psychological research, education, and professional standards across India.
